

Let's work together to reduce clean cardboard going to landfill

Did you know all cardboard placed out for bulky waste collection ends up in landfill?

Clean cardboard and paper is a great resource for re-use and when recycled produces high grade paper.

Reduce cardboard waste by:

- ✓ Cut and flatten cardboard boxes into your blue recycling bin. Remember items must be placed in your bin, as items placed next to bins will not be collected.
- ✓ Mosman residents can take bulky cardboard for recycling to Kimbriki Recycling Centre or Suez Artarmon – free of charge.
- ✓ Reuse cardboard boxes for storage or offer them to friends and family
- ✓ Reduce cardboard by asking suppliers or retailers to take back cardboard packaging and boxes for re-use
- ✓ Check to see if any of your deliveries can be provided in reusable containers.
