## About the Awards

The Mosman Design Awards is an event held once every two years by Council to celebrate outstanding contributions to the built environment and heritage conservation in Mosman.

The objectives of the Mosman Design Awards are to:

- promote excellence in urban design and heritage conservation
- recognise positive contributions to the streetscape
- recognise sympathetic conservation of heritage items and buildings within heritage conservation areas
- increase community awareness of high quality development.

This year the competition received 27 nominations, a record number which exceeded all expectation. In addition, over 500 votes were received for the People's Choice Award.

I am pleased to welcome you to the 2009 Mosman Design Awards.

The Design Awards are an opportunity for Council to recognise and pay tribute to the architects who design outstanding works in our beautiful suburb. The Awards program, now presented for the third time, continues to grow in popularity. This is reflected by the high number of nominations and their high standard, as well as the increased community involvement by way of voting for the People's Choice Award.

The success of the Mosman Design Awards is thanks to the participation of architects and owners. The quality of work nominated is significant, not only at the local level but also in a much broader context. Council is happy to support the Design Awards as an opportunity to promote good design in the community.

Councillor Dom Lopez OAM  
Mayor, Mosman Council

PROMOTING  
GOOD DESIGN

# Thank you

Mosman Council would like to thank everyone who participated in the 2009 Mosman Design Awards.

A special thanks to the three judges, Brian McDonald, Peter John Cantrill and Robert Staas, for their time, expertise and considered deliberations in assessing the nominations.

Council looks forward to hosting the Mosman Design Awards in 2011 and would encourage your participation again.
