7.	<p>GENERAL BUSINESS</p> <p>My Community Project is a new initiative where individuals are able to put forward their ideas for community projects with a project spend of between \$20,000 and \$200,000. Nominated projects must be developed by community members and supported by a sponsor that will be responsible for the second-stage applications as well as delivering the projects. The application process includes a final stage of being put to the local community who will vote on all projects. The idea that receives the most votes will receive funding to deliver the project. Committee members were encouraged to consider any projects they felt worthy of nominating for this grants program, particularly those relating to accessibility. It was noted that if Council receives one or more requests to sponsor applications under this program, formal Council approval will be required. The next Council meeting at which such requests could be considered is the meeting scheduled for Tuesday 7 May. To be considered at this meeting any requests for sponsorship would need to be submitted to Council by mid-April at the very latest. Further details can be found at https://www.nsw.gov.au/improving-nsw/projects-and-initiatives/my-community-project/</p> <p>The report on what issues have been addressed in the Mosman Access Strategy Physical Access is a work in progress.</p>	<p>Tony Friend and Pip Friedrich to meet to discuss projects</p>
