Introduction

Overview

This document provides a photographic record of buildings in The Orlando Heritage Conservation Area (HCA), Mosman. This comprehensive record of the streetscape and built form can be used to benchmark and compare changes in The Orlando Heritage Conservation Area over time.

Statement of Significance for The Orlando Heritage Conservation Area

The Orlando Avenue area is a conservation area of residential character containing mostly modest buildings in a wide range of architectural styles and several different types, generally blending well together, though Federation and Inter-War period styles are in the majority. The area demonstrates the pattern of building in Mosman in these periods.

Explanatory note

This document is divided into four parts -

- Part A Orlando Avenue eastern side. Nos. 1-35
- Part B Orlando Avenue western side Nos 2 - 38
- Part C Spofforth Street eastern side Nos 5 – 33
- Part D Royalist Rd western side Nos 4-46

Each page contains a boxed key which, for each photograph, identifies –

- Street address
eg.. 3 Orlando Avenue
The street address for an individual building is identified in addition to the corner street if applicable. Streets, laneways and passages are also shown
- Building title
eg: Talarah
The building title is identified from building façade signage
- Heritage item Y/N
eg: N
Items of heritage significance are identified in Schedule 2 of the Mosman Local Environmental Plan 1998
- HCA Ranking
eg: 2
The HCA Ranking (based on a scale of 1 to 4) has been identified from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd). A key to the conservation area ranking is provided below.

- Other comments

ie: Semi-detached

Other comments provide additional information of interest. For example, may state that the building is semi-detached or part of a series of photos taken to catch some detail otherwise not shown in one photograph

- Date of photograph

ie: 9 March 2010

The date the photograph was taken is indicated. Most photographs were taken on 2 & 3 February and 8 & 9 March 2010 but due to obstruction by traffic or weather or other constraints some additional photographs were taken on other days.

Extract from the Mosman Heritage Review 1996

The following is an extract from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd), pages 91-92 of the main report. It is a key to the conservation area rankings (based on a ranking scale of 1 to 4) for each building identified in this photographic survey.

Ranking	Description	Objectives of development control
*	A building recommended for individual heritage listing in the heritage schedule	Maintain heritage characteristics and streetscape intactness
1	A building with a high degree of intactness which contributes to the character of the area in the terms given in the definition of a Conservation Area	Maintain heritage characteristics and streetscape intactness
2	A building which contributes to the character of the area but whose significance has been reduced by loss of original materials or detail (e.g. roofs, chimneys, fences), unsympathetic additions (e.g. verandah infill) or inappropriate decorative treatment (e.g. painting of face brickwork).	Reconstruct original features by removing unsympathetic additions or using more appropriate decorative treatment
3	A building whose impact on the heritage character of the area is neutral	Maintain benign impact
4	A building which has an adverse impact upon the area because of its scale, design, assertiveness, materials or the like, or because its original qualities have been mutilated or removed	Encourage the ultimate replacement of the building with one less assertive, or amelioration of its adverse impact by sympathetic alterations, plantings, more appropriate colour scheme or other treatment
