Rear Rawson Park Bowling Green	562

Introduction

Overview

This document provides a photographic record of buildings in the Bradleys Head Road Heritage Conservation Area, Mosman. This comprehensive record of the streetscape and built form can be used to benchmark and compare changes in The Bradleys Head Road Conservation Area over time.

Statement of Significance for The Bradleys Head Road Heritage Conservation Area

Bradleys Head Road Conservation Area demonstrates important aspects of the history of Mosman's residential development in its street pattern, landscape, topography and architecture, from the time of the earliest subdivision until the present time. It demonstrates the very wide range of domestic architecture in scale, style, forms and details, as well as revealing a broad range of responses to conservation of this built environment. It is aesthetically and historically one of the most dramatic and pleasing residential areas of Sydney.

Explanatory note

Each page of this document contains a boxed key which, for each photograph, identifies

- Road address
eg: 63 Bradleys Head Road
The Road address for an individual building is identified in addition to the corner Road if applicable. Roads, laneways and passages are also shown
- Building title
eg: Trelawney
The building title is identified from building façade or signage
- Heritage item Y/N
eg: Y
Items of heritage significance are identified in Schedule 2 of the Mosman Local Environmental Plan 1998 and Schedule 5 of the Draft Mosman LEP 2011
- HCA Ranking
eg: 2
The HCA Ranking (based on a scale of 1 to 4) has been identified from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd). A key to the conservation area ranking is provided below.

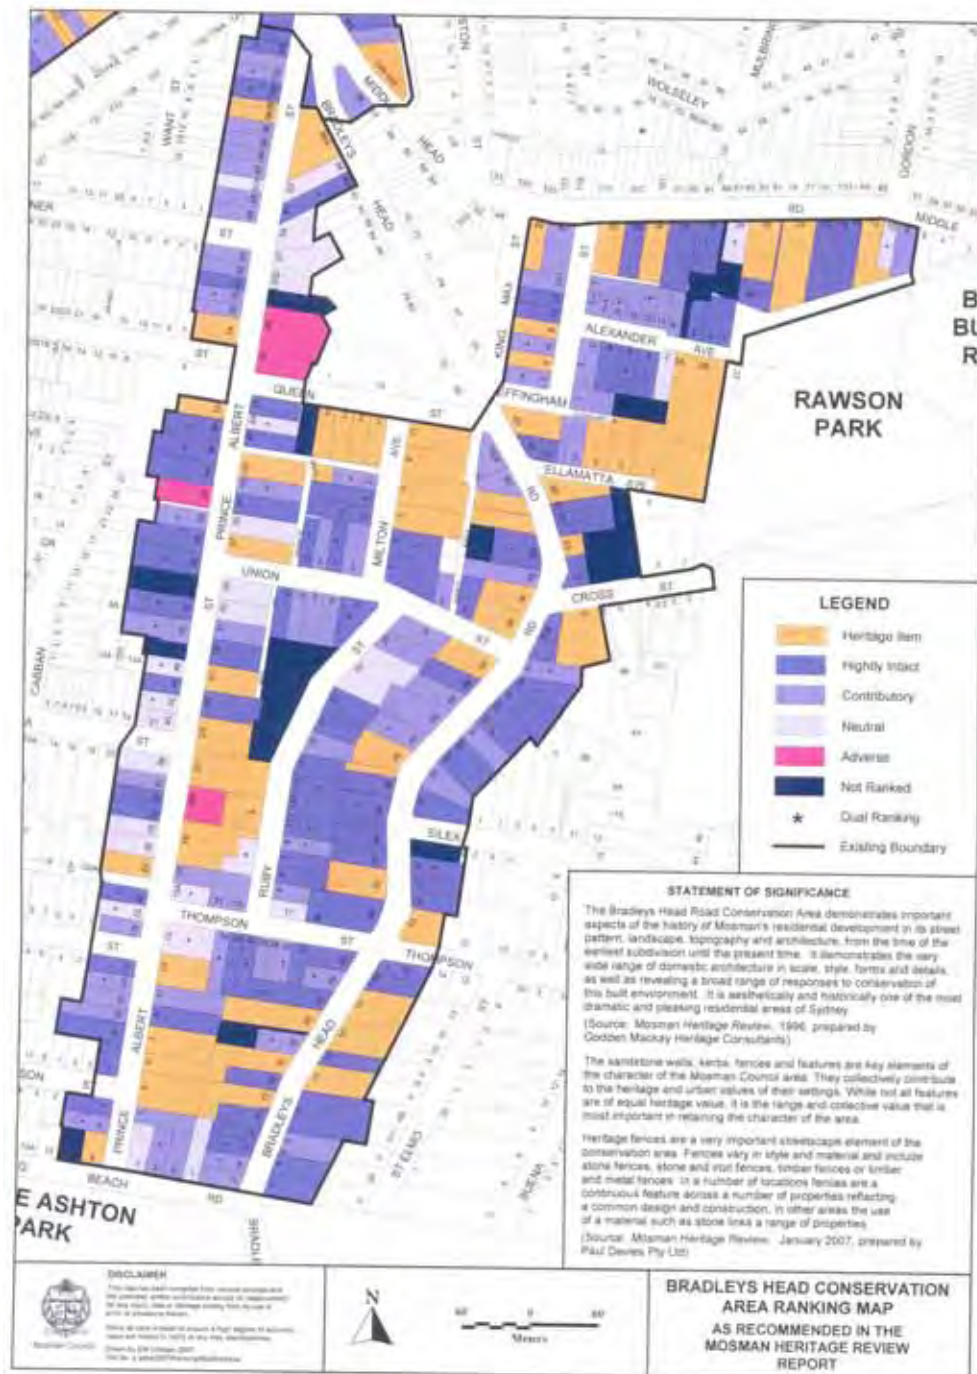

- Other comments
ie: Multiple dwelling
Other comments provide additional information of interest. For example, may state that the building is semi-detached or part of a series of photos taken to catch some detail otherwise not shown in one photograph
- Date of photograph
ie: 13 December 2010
The date the photograph was taken is indicated. The photographs were taken over a period of seven months, between November 2010 and June 2011.

Extract from the Mosman Heritage Review 1996

The following is an extract from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd), pages 91-92 of the main report. It is a key to the conservation area rankings (based on a ranking scale of 1 to 4) for each building identified in this photographic survey.

Ranking	Description	Objectives of development control
*	A building recommended for individual heritage listing in the heritage schedule	Maintain heritage characteristics and Roadscape intactness
1	A building with a high degree of intactness which contributes to the character of the area in the terms given in the definition of a Conservation Area	Maintain heritage characteristics and Roadscape intactness
2	A building which contributes to the character of the area but whose significance has been reduced by loss of original materials or detail (e.g. roofs, chimneys, fences), unsympathetic additions (e.g. verandah infill) or inappropriate decorative treatment (e.g. painting of face brickwork).	Reconstruct original features by removing unsympathetic additions or using more appropriate decorative treatment
3	A building whose impact on the heritage character of the area is neutral	Maintain benign impact
4	A building which has an adverse impact upon the area because of its scale, design, assertiveness, materials or the like, or because its original qualities have been mutilated or removed	Encourage the ultimate replacement of the building with one less assertive, or amelioration of its adverse impact by sympathetic alterations, plantings, more appropriate colour scheme or other treatment
