

Military Road Photographic Survey May/June 2006

Mosman Municipal Council

Introduction

Overview

This document provides a photographic record of buildings fronting Military Road, Mosman, from Spit Junction to Centenary Circle, within the Spit Junction and Mosman Village business centres.

The photographic survey was undertaken by Council's planning staff in response to a resolution of Mosman Council's Policy and Finance Committee Meeting held 3 February 2004. The resolution followed a request by Councillor Harvey to provide such a record.

The comprehensive record of the Military Road streetscape and built form provided by this photographic survey will assist in informing the review of existing planning and development controls in the business centre being undertaken in 2006/07 as part of Council's local environmental plan (LEP) review and plan making project.

The photographic survey also provides an historical record of the streetscape to be used to benchmark and compare changes in the built form over time.

Explanatory note

This document is divided into two parts—

Part A: South-west side of Military Road

Spit Junction (Military Road/Vista Street) to Centenary Circle (no. 110 Prince Albert Street)

Part B: North-east side of Military Road

Spit Junction (Military Road/Spit Road) to Centenary Circle (Middle Head Road/Martens Lane)

Each page contains a photograph of a building, group of buildings, street, laneway, passage or other feature within the Military Road streetscape.

Each page also contains a boxed key which, for each photograph, identifies—

- Street address

ie. 563 Military Road, Mosman

The street address for an individual building or group of buildings is identified in addition to the corner street if applicable. Streets, laneways and passages are identified by name only (ie. Strand Passage, Mosman).

- Building title

ie. Trafalgar Square

The building title was identified from the building facade or sourced from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd).

- Business name/s

ie. Kodak Express

The names of businesses operating within the building are identified, and are primarily businesses within the ground floor shopfronts that were readily discernable.

- Heritage item Y/N
ie. No

Items of heritage significance are identified in Schedule 2 of the Mosman Local Environmental Plan 1998 (in force at the time the photographic survey was undertaken). The reference number indicated is a reference to the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd).

- HCA ranking
ie. 2

All land within the photographic survey area forms part of the Military Road Heritage Conservation Area (HCA) identified in Schedule 2A of the Mosman Local Environmental Plan 1998 (in force at the time the photographic survey was undertaken). The HCA ranking (based on a ranking scale of 1 to 4) has been identified from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd). A key to the conservation area rankings is provided on the following page.

- Other comments
ie. 1 within a group of 6 buildings (557-569 Military Road)

Other comments provide additional information of interest. For example, may state that the building shown in the photograph forms part of a group of buildings or may provide historical land use information.

- Date of photograph
ie. 3-4 May 2006

The date the photograph was taken is indicated. Most photographs were taken on 3 and 4 May 2006, however, due to obstruction by traffic, or weather or other constraints, some additional photographs were taken later in May and June.

Extract from the Mosman Heritage Review 1996

Each building in the photographic survey has a HCA ranking based on a scale of 1 to 4 (except items of heritage significance). The HCA ranking is stated in the boxed key under the photograph of the building.

The following is an extract from the Mosman Heritage Review 1996 (Godden Mackay Pty Ltd), pages 91-92 of the main report. It is a key to the conservation area rankings (based on a ranking scale of 1 to 4) for each building identified in this photographic survey.

Ranking	Description	Objectives of development control
1	A building with a high degree of intactness which contributes to the character of the area in the terms given in the definition of a Conservation Area.	Maintain heritage characteristics and streetscape intactness.
2	A building which contributes to the character of the area but whose significance has been reduced by loss of original materials or detail (eg roofs, chimneys, fences), unsympathetic additions (eg verandah infill) or inappropriate decorative treatment (eg painting of face brickwork).	Reconstruct original features by removing unsympathetic additions or using more appropriate decorative treatment.
3	A building whose impact on the heritage character of the area is neutral.	Maintain benign impact.
4	A building which has an adverse impact upon the area because of its scale, design, assertiveness, materials or the like, or because its original qualities have been mutilated or removed.	Encourage the ultimate replacement of the building with one less assertive, or amelioration of its adverse impact by sympathetic alterations, plantings, more appropriate colour scheme or other treatment.
