

MINUTES OF ACTIVE TRANSPORT WORKING GROUP

13 AUGUST 2021

Attendance: Councillor Tom Sherlock
 Warren Yates
 John Goddard
 Brian Watters

Polly Makim
 Christopher Saunders
 Luke Cranson
 Leonie Matthews

Apologies:

	Matters	Status
1.	Welcome to Country	
2.	Previous Minutes Endorsed by Committee.	Noted
3.	Vehicles not stopping at T intersections Request for provision of a stop sign in Clanalpine Street to slow traffic. Suggestion bus stop moving to other side to improve sight lines for drivers turning right or extending yellow lines further along to stop parking near corner.	Staff to review
4.	Pedestrian safety at T intersections Members identified a number of intersections which may benefit from safety improvements due to the distance to cross or site lines: <ul style="list-style-type: none"> • Clanalpine Street/Raglan Street • Milner Street/Raglan Street – linemarking to be squared up • Beaconsfield Road/Middle Head Road • Mosman Street/Raglan Street • Cowles Road/Avenue Road • Brady Street/Ourimbah Road – possibility of Traffic Lights • Muston Street/Middle Head Road – needs repainting or concreting of marked areas <p>The island works well to slow traffic at Cabramatta Road/Cowles Road.</p> <p>Separate issue with narrow part of Moruben Road, travelling west to east. Difficult section for cyclists. Discussion on treatment options to slow vehicles, including signs, road painting, roughened surface before and after narrow section. Reduction in speed limit also an option.</p>	Staff to review

	Matters	Status
5.	<p>40km/h speed limit</p> <p>A part of the Active transport strategy and the process for implementation will be confirmed once Council has adopted the strategy.</p> <p>Strategy to include data to justify 40 km/h.</p> <p>Question about how this will affect School Zones.</p>	Noted
6.	<p>Diagonal parking on Prince Albert Street – rear to kerb</p> <p>Working well – drivers have adapted to conditions after initial confusion.</p>	Noted
7.	<p>Mapping of tracks and steps</p> <p>Some missing from Council’s map – unmade roads/steps/bush tracks. Suggestion walking map being made interactive with photographs of each walk. To be referred to Council’s GIS and Web Team for advice.</p>	Staff to check with GIS and Web teams
8.	<p>Active Transport Strategy</p> <p>Almost completed, going through the final internal reviews. Will most likely be presented to Council later this year or the new Council early in 2022.</p>	Noted
9.	<p>Future Meetings</p> <p>Last meeting under the current Council. Committee will be considered by the new Council after the elections due 4 December 2021.</p>
